

**BUREAU OF LAND MANAGEMENT
BUFFALO FIELD OFFICE, WYOMING**

**STANDARD STIPULATIONS
FOR
MINERAL MATERIALS SALES CONTRACT
AUTHORIZED FOR
Campbell County Road & Bridge Department (Campbell County),
Elmore/Gardner Lake Scoria Mine, WYW-168421**

1. The Special/Standard Stipulations listed herein are attached to the Bureau of Land Management (BLM) Buffalo Field Office (BFO) authorization of the above-named project. These stipulations are in addition to the Terms and Conditions stated in the Sales Contract/Free Use Permit (FUP) being authorized for this project. By signing the Sales Contract/FUP, the project proponent is providing written agreement that they have read, understand, and will abide by those terms and conditions. BLM authorization of the project will occur after proponent also agrees that they know, understand, and agree to abide by the attached Special/Standard Stipulations listed herein.
1. The BLM BFO Authorized Officer, 1425 Fort Street, Buffalo, Wyoming, 82834, phone number 307-684-1100, must be supplied with the name of the person in charge of the project's operations along with his/her phone number, and email address and/or physical location at which they can be reached.
2. The BLM, BFO Authorized Officer will be notified by the project proponent within 10 days of:
 - a. Beginning any surface disturbance associated with, approved for, this project; and,
 - b. Completion of all activities associated with this project (not including reclamation).
3. That no holes, pits, equipment, or facilities be maintained on the ground during extraction or upon termination of the contract/permit which would endanger human life, livestock, or wildlife. Any such potential hazards will be properly fenced. If the potential hazard is extreme enough, signs may also need to be installed.
4. That the BLM Authorized Officer, or his/her delegate, be allowed to examine at any time the mineral materials area so described, the records and books of the contractor/permittee to determine the quantity of mineral materials removed, the location(s) from which they were removed, and to inspect the described area for

compliance with the provisions of the terms and conditions of the contract/permit and its' attached stipulations.

5. **That within 30 days of termination or expiration of the contract/permit, the contractor/permittee will submit to BLM BFO a final accounting of the total volume of mineral materials removed under the terms/conditions and stipulations of the contract/permit.**
6. That all mineral materials (raw materials, processed materials, reject materials, and excess produced materials) shall remain the property of the United States Government, and that no part of the materials so enumerated may be given away, exchanged, or used in payment for services in obtaining or processing it.
7. All requirements of the Wyoming Environmental Quality Act of 1973 must be complied with.
8. If any cultural values are observed during construction/operations, work is to be immediately stopped, they are to be left intact, and the BLM BFO Field Office Manager is to be notified. Work may not resume until BLM allows.
9. The holder of this authorization shall immediately bring any paleontological resources or fossils discovered as a result of construction/operations under this authorization (including expansions) to the attention of the BLM Authorized Officer. The holder shall suspend all activities in the vicinity of such discovery until notified to proceed by the BLM Authorized Officer. This officer will evaluate, or will have evaluated, such discoveries not later than 5 working days after being notified, and will determine what action shall be taken with respect to such discoveries. The decision as to the appropriate measures to mitigate adverse effects to significant paleontological resources will be made by the BLM Authorized Officer after consulting with the holder. The holder may be responsible for the cost of any investigations necessary for the evaluation, and any mitigative measures.
10. All topsoil will be saved and re-spread on the site after mining is completed.
11. After completion of mining, the area will be contoured and sloped to blend in with the surrounding area within 12 months following removal of the contracted/permitted amount of mineral materials, or termination of the contract/permit, whichever occurs first.
12. Notification will be given to the BLM BFO Authorized Officer within 60 days following reclamation of the project area.
13. All plants listed on the State of Wyoming Noxious List (below) and the appropriate county list(s) will be controlled annually until final reclamation has been completed.

During times when the contracted/permitted mine is inactive, all listed weed species will be monitored and controlled. If project activities cease for an extended period, the listed species will be monitored and controlled for up to three years, possibly longer if needed. Thereafter, listed weed species will continue to be controlled as needed. Herbicides will be applied by a certified applicator, or under their direct supervision, and in strict accordance to label directions. All safety standards and precautions on the label will be strictly adhered to.

In addition to the state designated list, Campbell, Johnson, and Sheridan Counties declared a number of “weeds of concern” and “Declared Pests” under the authority of the Wyoming Weed and Pest Council Act. Included for annual control are:

Campbell County

black henbane
buffalobur
common cocklebur
wild licorice

Johnson County

buffalobur
common cocklebur
common mullein
curly dock
puncturevine
tall mountain larkspur
wild licorice

Sheridan County

black henbane
buffalobur
common cocklebur
common mullein
curly dock
puncturevine
showy milkweed
wild licorice

**WYOMING WEED & PEST CONTROL ACT DESIGNATED LIST:
(Designated Noxious Weeds .S. 11-5-102 (a)(xi), and
Prohibited Noxious Weeds W.S. 11-12-104)**

Canada thistle (<i>Cirsium arvense</i> L.)	Common burdock (<i>Arctium minus</i> (Hill) Bernh.)
Common St. Johnswort (<i>Hypericum perforatum</i>)	Common Tansy (<i>Tanacetum vulgare</i>)
Dalmatian toadflax (<i>Linaria dalmatica</i> (L.) Mill.)	Diffuse knapweed (<i>Centaurea diffusa</i> Lam.)
Dyers woad (<i>Isatis tinctoria</i> L.)	Field bindweed (<i>Convolvulus arvensis</i> L.)
Hoary cress (whitetop) (<i>Cardaria draba</i> and <i>Cardaria pubescens</i> (L.) Desv.)	Houndstongue (<i>Cynoglossum officinale</i> L.)
Leafy spurge (<i>Euphorbia esula</i> L.)	Musk thistle (<i>Carduus nutans</i> L.)
Ox-eye daisy (<i>Chrysanthemum leucanthemum</i> L.)	Perennial pepperweed (giant whitetop) (<i>Lepidium latifolium</i> L.)
Perennial sowthistle (<i>Sonchus arvensis</i> L.)	Plumeless thistle (<i>Carduus acanthoides</i> L.)
Purple loosestrife (<i>Lythrum salicaria</i> L.)	Quackgrass (<i>Agropyron repens</i> (L.) Beauv.)
Russian knapweed (<i>Centaurea repens</i> L.)	Russian olive (<i>Elaeagnus angustifolia</i> L.)
Saltcedar (<i>Tamarix</i> spp.)	Scotch thistle (<i>Onopordum acanthium</i> L.)
Skeletonleaf bursage (<i>Franseria discolor</i> Nutt.)	Spotted knapweed (<i>Centaurea maculosa</i> Lam.)
Yellow toadflax (<i>Linaria vulgaris</i> L.)
